What makes our program stand out?

Dance offers children a vital "third place" outside of home and school where they can express themselves creatively, build confidence, and connect with others. It provides a safe environment for emotional exploration, fostering social skills through teamwork and collaboration. Dance promotes physical health and mental well-being while encouraging self-discovery and resilience. Through exposure to different cultural forms and the freedom to experiment, dance helps children develop a strong sense of identity, belonging, and creativity—skills that support their growth in all areas of life.

Chesco Dance Center excels at providing this service because it creates a supportive, inclusive environment where children can thrive both creatively and socially. With a focus on fostering individual expression through a variety of dance styles, the center allows kids to explore their unique talents while learning important skills like discipline, teamwork, and self-confidence. The center's experienced instructors offer personalized guidance in a welcoming, non-competitive atmosphere, helping each child feel valued and empowered. Chesco Dance Center not only emphasizes technique but also the emotional and social growth of its students, making it a true third place for children to develop a strong sense of community, creativity, and self-worth.

Level Change for the Season

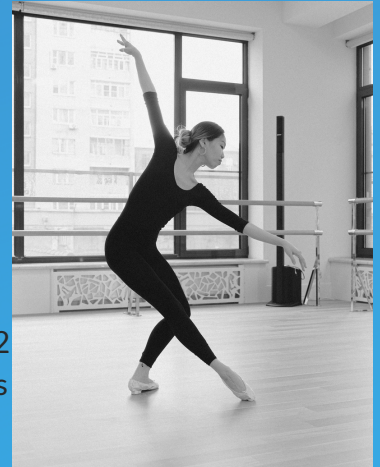

Unlike regular school, dancers often study at the same level classes/styles for 1-3 years. They spend the first year learning the curriculum at what is called a “novice level”, they then progress to “mastering the level”. Dancers who progress in this manner become more proficient at all aspects of the dance curriculum and the benefits also include building confidence, strength, poise, and technique.

Pointe Invitations

Dancers will receive a pointe invitation from the Director if they are eligible .

To be considered for pointe, dancers must have at least 1 year Ballet experience and be 11-12 years old. Once accepted to the pointe program they must maintain 2 separate ballet classes a week on separate days, and must take the pre-pointe class before being accepted into the pointe program. Pre-pointe dancers may take 1 ballet class until accepted into the program.

Dancers may not purchase pointe shoes until accepted into the program with an acceptance letter.

Professional Training and Dance excellence!

- Placement of dancers is made at the discretion of the director and faculty and is based on your child's ability and level. All decisions are made by professionals and are with your child's best interest in mind.
- Chesco Dance Center reserves the right to change staff, class times, and levels at any time for any reason.
- There are no refunds or credits for classes missed or dropped throughout the session

- Our goal is to provide the highest quality dance instruction and to uphold a professional caliber. Whether a student is pursuing a dance career or just wanting the finest instruction for recreational purpose, Chesco Dance Center is the studio of choice.
